CANO ESPINOZA

FULL STACK WEB DEVELOPER

Full stack web and mobile developer with a focus on front end development. Dedicated to making a difference. Striving to effect positive change in the world.

WORK EXPERIENCE

Front End Developer / Co-founder

IM LIMITLESS, LLC | February 2020 - present

- Solely designed and developed the front end of a React Native app
- Utilized Agile methodologies to determine a timeline for MVP completion and executed tasks accordingly
- Communicated processes to my non-technical co-founder so that he could understand my successes and struggles

AV Technician

SD Showdown | Feb 2019 - Feb 2020

- Set up audio and visual equipment for large corporate events in hotels and convention centers
- Delegated responsibilities to less experienced technicians on site
- Interfaced with clients and hotel staff about specific needs and requests

Live Audio Engineer

SeaWorld | Mar 2018 - Jun 2019

- Ran sound for the Pets Rule show using a digital mixer and wireless microphones
- Operated Q Lab software using both an iPad and computer
- Provided customer service to theme park attendees

EDUCATION

San Diego Code School

Full Stack Web Development (MERN) | Jun 2019 - Nov 2019

Southwestern College

AS Commercial Music | Aug 2016 - May 2018

PROJECTS

IM LIMITLESS

IM LIMITLESS, LLC

- Ideated, planned, and developed a goal tracking mobile app
- Built features such as a calendar, progress tracker, and goal creation form
- Had no prior experience with mobile development and learned React Native while building the app

Make Cool Beats

makecoolbeats.com

- Built a free, mobile-first drum pad that accurately represents what professional music producers use
- Designed a sleek, interactive UI that is perfect for mobile use
- Created the website with the goal of bringing the fun of beat-making to the masses

Brand Website

Cheryl R. Lee

- Worked on a team with four other junior developers, often using mob programming
- Organized and delegated tasks using Agile and Scrum methodologies
- Built stateful and stateless components, and created the overall design of the website
